The audience tried to lynch Bogrof, but after they were quieted all joined in singing the national anthem.

## Defies Police Officers

Foreigner, Taunted, Shoots Fellow Boarder and Self.

Mt. Carmel, Pa., Sept. 15.—Because fellow boarders taunted him and said he was stuck up because he washed in his room instead of in the kitchen of the boarding house, Alex Kaulik, 22, went out, got two revolvers, and came back and fired at the boarders. One bullet struck William Mafeski in the stomach, inflicting a wound that may prove mortal. He then ran to his room and barricaded the doors. The police came, but he fired on them and drove them away. After repulsing the officers for four hours Kaulik fired a bullet into his brain and was found dead when the room was entered.

## Tragedy In Farmhouse

Authorities Unable to Explain Finding of Two Bodies.

Minneapolis, Sept. 15.—A double tragedy which offers unusual elements of mystery was revealed on a little farm in Anoka county, a few miles north of Minneapolis. In the cellar of the farmhouse, terribly beaten, investigators found the body of Mrs. Walter Bolton, while under a few inches of fresh earth in the garden was discovered the body of a man who has not as yet been identified. Frank Rhoades, who had been employed on the farm, has not been seen by neighbors for two or three days.

PROGRAM ELIMINATES TRIP TO SOUTH

President Taft Starts on 13,000  
Mile Speaking Tour.

## WILL DEFEND TARIFF VETOES

Today is Fifty-Fourth Birthday Anniversary of Nation's Executive and Second Anniversary of Start on Western and Southern Trip Which Included Famous Winona Speech. Will Mix as Little Politics as Possible With Talks to the People.

Beverly, Mass., Sept. 15.—President Taft this afternoon started on his 13,000-mile swing around the circle. The program has been very carefully prepared and revised and the hundred and odd local committees that will be entrusted with the presidential person along the route have been tipped and trained in their duties as hosts to the chief executive.

Today is Mr. Taft's fifty-fourth birthday. It is also the second anniversary start of the first 13,000-mile trip which Mr. Taft made around the big circle. The territory to be covered is generally the same, though in this trip the south has been eliminated. Then, as now, the tariff was the all-important issue before the country.

#### Insurgency Was Rampant.

Then the Payne-Aldrich law had just been placed upon the statute books. Insurgency in the middle west was rampant. Mr. Taft defended the Payne-Aldrich law on his last trip as the best tariff law which had ever been enacted. His Winona speech, in which the endorsement to the Payne law was given, was from a political standpoint the climax of

The charge struck the girl in the head, tearing it from her body.

## Rodney J. Diegel Declares He Is Innocent.

### ISSUES STATEMENT AT DAYTON

Says That He Was Wrongfully Convicted in Connection With Alleged Bribery Cases in Ohio Legislature and That He Knows of No Wrongdoing on the Part of Members—Appeal For Suspension of Sentence Comes Up in Circuit Court Today.

Dayton, O., Sept. 15.—Rodney J. Diegel, sergeant-at-arms of the senate, under sentence to three years in the Ohio penitentiary as an accessory in the alleged bribing of three members of the state senate, issued a statement to the public, which is an avowal of innocence and a profession of ignorance of wrongdoing on the part of members or the legislature.

The statement was entirely lacking in the sensational disclosures promised, and was contradictory of his repeated statements that he would tell something about the bribery cases. The attorney general of the state and prosecuting attorney of Franklin county, where Diegel was convicted, while not surprised, were greatly disappointed because of assurances that Diegel would not only confess his guilt, but implicate others and furnish evidence of the crimes.

## Another Goes To Workhouse

Judge Blair Hands Stiff Sentence to Portsmouth Vote-Seller.

Portsmouth, O., Sept. 15.—On the prisoner's plea of guilty to a charge of selling his vote at the 1910 election, Judge Blair sentenced Virgil Benner, a young laborer, to serve one year in the Cincinnati workhouse and to pay a fine of \$200, beside disfranchising him for five years.

Benner was one of the 41 persons indicted in the Scioto county boodle probe last spring. He fled at the time, but returned several days ago, and it was claimed by court officials he had been threatening violence to anyone who might seek to arraign him on the charge because of his rash talk.

Benner will be the first of the 2,000 vote-sellers in Adams and Scioto counties to suffer by imprisonment for his violation of the election laws.

#### Fire Destroys Railway Shop.

## "Dolls' Day" One of the Unique Children's Pageants of the Country

Photos by American Press Association.

MOTHER has her day. Father has his day. Children have their day. Dolly has her day. And why not? Is not dolly practically as fixed an institution as any of the rest? The annual parade of dolls, which is held during the height of the summer season at Long Branch, N. J., stands out as one of the greatest attractions of that resort. It is one of the proudest days in the lives of the little folks when they march along the boardwalk, their dolls in arms or in carriages, and receive the plaudits of the on-lookers. This year's parade took an hour to pass a given point and was witnessed by 50,000 persons. There were 300 children in line, none of them more than seven years old and the majority of them little more than babes. The fancy costumes of the dolls displayed much ingenuity of conception and excellence of execution. Two of the most attractive dolls in the parade were those of Audrey May Joline, two and a half years old, and Pearl Maps, five years old. Miss Joline, shown in the upper picture, won first prize.

# SORROWFUL ENDING OF A WORTHY YOUNG MAN. YOUTH MEETS HORRIBLE DEATH. FLEES FROM STORM BUT IS OVERTAKEN BY FATE.

Willie McBee, Hurrying Home to Shelter, Falls on Corn Knife and Severs His Jugular Vein.

Had Been Cutting Corn With His Father on the H. D. Johnson Farm, Where the Family Lived.

The shocking news of the tragic death of 9-year-old Willie McBee, son of Wm. McBee, living seven miles south of this city on the H. D. Johnson farm on the Greenfield pike, reached this city late last evening.

The young fellow met his death while himself and father were hurrying home from the cornfield as the storm approached.

Young McBee carried his corn knife in a careless way, and as he ran he stubbed his toe and fell. The vicious looking blade in his hand penetrated the lad's throat and instantly severed the jugular vein.

The news was brought to this city by Friend Miller, an employee of the Hess Livery, who witnessed the accident on the side of the pike. Miller drove rapidly and overtook the father, who returned and picked up the boy and carried him home.

With each step the frightened father took in carrying the lad home the little fellow's life blood gushed forth, leaving a crimson trail along the way. Both the jugular vein and carotid artery were severed by the keen blade, and there was no hope for the boy from the very first.

The gash in his throat was not over two inches in length, but he had fallen upon the blade with such force that it penetrated deep into his neck. Dr. Stemler, of Good Hope was quickly summoned, but before he could reach the McBee home, the boy's life blood had ebbed away and he breathed his last.

It was a heart-rending scene in the McBee home, with the fair young face of the little fellow steeped in the shadows of death, while the heart-broken father and mother and terror-stricken children gathered in mingled sorrow and awe in the presence of the destroyer.

The accident which caused the lad's death is one of the most unusual that ever took place in Fayette county. He was fleeing from the storm and more or less excited by the heavy roll of thunder and flashes of lightning, and it is supposed that when he stumbled his knife fell from his hand and struck on the handle, standing in an upright position just as the lad struck it in his heavy fall to the earth. When the knife penetrated his throat he quickly removed it but did not arise from the ground, and in an instant his clothing was saturated with blood which spurted from the gaping wound in a thick stream.

The McBee family is composed of the father, mother and four children, who have been living on the Johnson farm for some time, and have the respect of the entire community, which was shocked by the boy's tragic death. They moved to this county from one of the southern counties.

Undertaker McCoy was notified to take charge of the remains, and funeral services will be held tomorrow. Coroner Howell was notified of the occurrence late in the evening, but did not view the remains until Friday morning.

## A GREAT ADVANTAGE TO WORKING MEN.

J. A. Maple, 125 S. 7th St., Steubenville, O., says: "For years I suffered from weak kidneys and a severe bladder trouble. I learned of Foley Kidney Pills and their wonderful cures so I began taking them and sure enough I had as good results as any I heard about. My backache left me and to one of my business, expressman, that alone is a great advantage. My kidneys acted free and normal, and that saved me a lot of misery. It is now a pleasure to work where it used to be a misery. Foley Kidney Pills have cured me and have my highest praise." Blackmer & Tanquary.

## Fire Horse Crippled; Need of Another One

The fire alarm turned in Thursday afternoon when lightning struck the residence of Sethe E. Parrett, brought to light a condition of affairs in the fire department which places the department at a disadvantage in successfully combating flames and throws the entire city more liable to disastrous fires than the average property owner cares to have it.

The roan horse purchased for the department last year to take the place of one of the horses that had cultivated the habit of refusing to pull, is crippled in the hip, and is in a condition that renders it entirely unfit for service, and which may result in permanent unfitness for the department, so that the chemical truck remains in the department building when a fire alarm comes in.

With only half of a fire fighting apparatus available, the fire dangers are greatly increased, and if the horse continues lame, nothing short of a new animal will bring the department up to the efficiency that it should be. An attempt is being made to purchase a new horse, it is said, and the citizens will rest easier when this is done and the department is fully equipped for instant service.

## Youth Rides Train Leg Is Cut Off

## Diegel Confession

(Continued from Page One.)

To Rebut Newspaper Stories. Diegel's excuse for the statement is that he desired to refute the many newspaper stories which he said, misrepresented him and placed him in a false position. The fact that Diegel had been in hiding here for several days past and at times in conference with the attorneys for the indicted legislators, satisfied the state and prosecuting attorneys that the final statement by Diegel would be worthless insofar as it might implicate others.

"No man innocently convicted," Diegel wrote, concluding his letter to the public, "likes to face possible punishment and additional disgrace. Yet no man of honor and the instincts of decency can purchase immunity or freedom by false or malicious statements of what he does not know."

### Up to Circuit Court.

Columbus, O., Sept. 15.—In discussing the Diegel statement, neither Attorney General Hogan nor Prosecuting Attorney Turner was inclined to think further suspension will be granted. "My experience with circuit courts leads me to believe there will be no further suspension, and so far as I am personally concerned I see no reason why there should be," said Mr. Hogan. Unless there is a further suspension Diegel may walk into the penitentiary Monday afternoon. The arrest will be argued before the circuit court today.

## Colored Bootlegger Victim of Sandbag

Information just received from the police department of Xenia, in response to inquiry made in that city for Raymond Lucas, the colored bootlegger who escaped from the officers during the county fair here, indicates that Lucas is now confined in a hospital in Cincinnati in a critical condition, as a result of being sand-bagged by a gang of thugs in that city.

Lucas, it will be remembered, was disposing of whiskey at so much per drink in a tent opposite the fair ground entrance, but escaped from Officer Lewis White while Chief Devaney was searching the tent.

## A Harmless Way to Darken the Hair

A Little Sage and Sulphur Makes Gray Hair Vanish—A Remedy for All Hair Troubles.

Who does not know the value of sage and sulphur for keeping the hair dark, soft, glossy and in good condition? As a matter of fact, sulphur is a natural element of hair, and a deficiency of it in the hair is held by many scalp specialists to be connected with loss of color and vitality of the hair. Unquestionably, there is no better remedy for hair and scalp troubles, especially premature grayness, than sage and sulphur, if properly prepared. The Wyeth Chemical Company of New York put up an ideal remedy of this kind, called Wyeth's Sage and Sulphur Hair Remedy, and authorize druggists to sell it under guarantee that the money will be refunded if it fails to do exactly as represented.

If you have dandruff, or if your hair is thin or turning gray, get a bottle of this remedy from your druggist today, and see what it will do for you.

This preparation is offered to the public at fifty cents a bottle, and is recommended and sold by all druggists. Special agent, Brown's Drug Store.

## Found by Roadside Gloriously Drunk

Upon complaint of citizens in the Cisco neighborhood east of this city on the C. H. & D. railroad, Officer John Haggard was dispatched to bring in a man who was drunk and raising Cain along the road near that station.

Officer Haggard arrived at Cisco after darkness Thursday evening, and found a man by the roadside, who, upon investigation, proved to be Cy Smith, one of the "exiles" who has a fine hanging over his head for fighting, and whose name is not a new one in police circles.

Smith was brought to this city and locked up until he became sober. Up to the present time no action has been taken in his case.

Smith claimed that he was attending the Chillicothe fair, and was on his way back to Cisco where it is said he has been living. He accompanied a man and woman home whom he claims had two quarts of booze, and his host landed a hard blow on his mouth during an altercation.

The man claims that he saw quite a number of "the gang" from this city who were maudlin drunk at Chillicothe.

## Highland and Ross Fairs Are Drenched

Persons from this city who attended the Hillsboro and Ross county fairs Thursday, were thoroughly drenched by the heavy rain storms which swept over this part of Ohio immediately after dinner and continued throughout the afternoon.

The rain commenced before any of the races were completed, and put an end to practically everything, killing the fair in exactly the same manner as the inclement weather did the Fayette county fair. The attendance, both at Chillicothe and Hillsboro was very large, and reports are that the agricultural displays were excellent and everything pointed to-

ward a big success—until it rained, then it was a different story.

Mrs. Wm. Worthington who attended the fair at Hillsboro, was standing near the track when a woman attempted to cross and in dodging one horse, stepped in the path of another and was run over and trampled upon. Besides being severely cut and bruised, and suffering a dangerous wound on the forehead where a shaft struck her, the woman is believed to have suffered internal injuries which may result in her death.

The race tracks at both places are said to be in such a condition that they cannot be used today.

### Wrecks His Machine Saves Woman's Life

What nearly proved to be a serious accident occurred near Lyndon one day this week, when Mr. Chas. Allemang, of Greenfield, formerly of this county, probably saved a woman's life by ditching his automobile and wrecking it.

Mr. Allemang, Wm. Clouser, and J. Clouser were enroute to the fair at Chillicothe in Mr. Allemang's machine and when near Lyndon a horse driven by Mrs. Wilson, of Harper's Station, became frightened and overturned the buggy, throwing her into the road. The auto was closely upon her and with chivalrous presence of mind Mr. Allemang turned his machine into the ditch where it was badly wrecked, but fortunately with no serious injuries to the occupants who were however badly bruised.

The agricultural train on the C. A. & C. railroad stopped in this city on schedule time Thursday afternoon, and remained one hour while splendid lectures were delivered to a good sized crowd of people.

The lectures were very instructive and helpful, and so illustrated that all could easily understand.

Supt. McClain with a large class of high school students were among those who attended the lectures. There were three coaches devoted to the spread of agricultural knowledge. A number of railroad officials were among those on board the train.

The wet weather prevented many from attending, but everything considered, the attendance was very good.

### No Further Trace Of Robbers Found

All attempts to locate the man or men who robbed the B. & O. and Dice, Mark Co. Wednesday night, have so far failed, but indications are that the fellows are in Chillicothe, where the police are keeping a look out for them.

A box of high power 25-20 rifle cartridges was found near the B. & O. depot, but the box containing them could not be identified by any of the local hardware dealers, although the cartridges themselves undoubtedly came from the Dice, Mark company's store.

Goods to the value of \$84.50 were stolen from the Dice, Mark store, and consisted of 25 knives; 10 razors, 5 safety razors, 6 revolvers, and other articles of small value.

#### TREE 105 YEARS OLD.

A story of an apple tree 105 years old comes from Mt. Sterling. The tree, as a very small bush, was planted in 1806, together with an orchard on the Graham farm on Deer creek, Fongus Graham bringing the seedlings in his saddlebags from Kentucky.

One of those three is still standing, 105 years old, and this year loaded with apples. It is 13 feet and one inch around at the ground and as high up as a man can reach is 11 feet and 11 inches around. It is very high and at a distance resembles a forest tree both in shape and size. It was 60 years old before the apples were used, as the fruit was thought inferior. One year when fruit was scarce it was discovered the apples were very good.

### DON'T BE A KNOCKER.

Knockers are not welcome anywhere. In business or society they are shunned. Knockers themselves are not congenial. Two people with a chronic grouch soon separate with the mutual feeling that the other is a most disagreeable and ill-bred person. The man who constantly discourages, disparages and condemns everything that some one else is doing or trying to do is either extremely selfish or inordinately egotistic. He is usually both; these satanic qualities blend before they are born. When a man condemns as failure a project, in which he has no interest except a feeling for or against its success, he thereby registers in language the hope by which he is possessed—that misfortune and disaster may be its end. Men intuitively know and feel the quality of character which is the inevitable father of this attitude without analyzing how they know. The hostile attitude toward the success of other men's honest enterprises has its birth and execution in the quality of selfishness, just as surely as the fall of a stone has its source in the law of gravity. No man can enjoy life unless he enters into the joy of others. Every day you ride with men who cannot enjoy a landscape because they see in it the green fields and waving grain of some one who they know, or suspect they know, acquired his property by indirect methods. Not that they are sorry that he did wrong and added so much misery to the world, but the real basis of the agitation is the fact that he has the farm when they—worthy as they are—would like to have it.

If they were only glad that their neighbor was prosperous and really hoped he had done no wrong, how much it would beautify the landscape before them and enlarge and transform the great scenes of life through which they are passing.

### THE BEAUTIES OF FALL.

The three fall months are the finest of all the year in our latitude. The first keen breath of frost in the air dissipates the lassitude of a summer's accumulation. Look at the swing and step of the people on the street; note the animation of their bearing, the vitality of their greeting, the snap in their eye.

In this splendid autumn weather men live. In the summer time many a man has just enough vitality to preserve him from putrefaction and no more. But when nature opens her ice box and turns some crystals into the air, she brings to man the vigor to work, to love, aspire and be happy.

Many a man who is so anxious to express his mind merely expresses his stomach.

Some men's prayers certainly get to heaven. Hot air ascends.

### High Building Cost in City of New York

By F. B. ETHERIDGE

mechanics command more pay than anywhere, except in Chicago and on the Coast.

Marble work in New York costs about double what it does elsewhere, since it is conducted on the closed shop principle.

The only consolation is that marble is a luxury and not at all essential to a building, occupying about the same relation that silk lining does to a fine suit of clothes.

The wearer can get along just as well and find his suit just as satisfactory by using a less expensive lining.

### Light Apparel for Hot Summer Days

By R. E. LIDGERWOOD

One for winter, one for spring, and one Scotch homespun skeleton coat and trousers for the hot season.

Three suits will last four times as long as one suit, and so be a saving of 25 per cent. and give one comfort during each season, which is the main thing.

To be healthy the whole body should be exposed to as much fresh air as possible.

### Harmon in the Lead

(Continued From Page One.)

unwarrantably forbidden states to regulate railroad rates within their boundaries. It will argue that federal courts have unconstitutionally limited the state legislatures.

The pretext for the appeal will be the different decisions of Justice Sanborn of the United States circuit court of appeals, enjoining the railroad commission of Minnesota from regulating intrastate rates on the ground that such regulation could not be enforced, would deprive the roads of proper remuneration and would interfere with interstate commerce. But the governors take the broader ground that unless the supreme court by its final decision protects them, the states will become mere federal provinces.

### Harmon One of Five.

Governor Harmon was one of five governors who convinced the conference that the time had come for the states to call on the supreme court for help. The others who were especially prominent in bringing about an unprecedented action were Stubbs of Arkansas, Hadley of Missouri, O'Neal of Alabama and Aldrich of Nebraska. Harmon and O'Neal are Democrats and Hadley, Stubbs and Aldrich are Republicans.

The naming of the committee came at the end of a session remarkable for denunciation of the federal courts. Heretofore, since the conference began at the New Monmouth hotel, the house of governors limited itself to mild discussion of economic questions and an interchange of opinions on the best way for governors to govern. Of a sudden the temper of the conference changed. Hadley of Missouri let go with sharp criticism of Justice Sanborn of the court of appeals, and Aldrich of Nebraska followed with a sharper attack on Justice Sanborn and an accusation that federal judges were autocrats who had to be curbed.

There is many a garment tucked away in closet or garret that could be made as good as new by coloring. Modern package dyes are so easy to use and give such perfect results that it is often expensive economy not to use them.

## POETRY FOR TODAY

### THE DEAD.

Who are the Dead?  
Are they the souls who, questing,  
forth have fared  
Through the loose doors of their frail  
tenements?  
Who tarried not for staff, nor wine,  
nor bread?  
Who to the stress of Night their bosoms bared,  
Despite our bitter tears, our fond  
laments?  
Are they the Dead?

Who are the Dead?  
Are they the souls who, from their  
larger view,  
Regard with quiet eyes our foolish  
ways?  
Marvel that we should seek to stay,  
instead  
Of speeding them to their environs  
new?  
And smile to see the sepulchers we  
raise?  
Are they the Dead?

Who are the Dead?  
Say, rather, are not we in full-sensed  
life,  
Bound by our sickly fears, our out-  
worn creeds  
That strangely speak of faith,—we,  
who are led  
Apart from Love, by selfish aims and  
strife,  
Stified, enslaved, undone by our mis-  
deeds,—  
Are not we Dead?  
—By Adelaide Guthrie.

### HEALTH HINT FOR TODAY.

#### Wetting the Wrists.

When children come in from the playground hot and panting remember the old rule and make them wet their wrists and the lobes of their ears. The effect of this slight bath is wonderful, and it is not attended with the dangers that result from a plunge while overheated into a tub of cold water. Women while sewing on hot afternoons will find the constant wetting of the wrists and ear lobes very refreshing. Hanging wet towels about will cool a room, and a basin filled with cracked ice and salt will lower the temperature most pleasantly.

## Standard Freshly Implicated

Madero's Rival Says American Money Financed Revolt.

Monterey, Mexico, Sept. 13.—The published report from Mexico City that Dr. Francisco Vasquez Gomez has in his possession papers showing that the Madero revolution was financed by the Standard Oil company, has caused a big stir in business and political circles of the country.

According to the story that is told, the financing of the revolt negotiations were conducted through Joaquin Casezeb, attorney for the Waters-Pierce Oil company in Mexico. It is remembered during the revolution Mr. Casezeb and H. Clay Pierce made several trips between New York, Washington and Mexico.

The primary object of the Standard Oil company in furnishing the money for carrying on the revolution was to place it in position to better conduct its fight against the Lord Crowder or Pearson interests for control of the oil business of Mexico, it is stated. Recent reports that the oil concessions of the Pearson syndicate in Mexico are to be forfeited by the new government are regarded as substantiating the report of the Standard Oil interest in the revolution. Dr. Gomez, since his break with Madero, is said to have promised to make public the documents in his possession bearing on the subject.

Q.—Is Christianity a failure? This question is asked because Christianity was announced in such glowing terms to the shepherds on the plains of Judea, nearly nineteen centuries ago, and up to the present time has failed most lamentably to accomplish all that was implied in its introduction. The herald angels sang—"Behold, we bring you good tidings of great joy which shall be unto all people" and "Peace on earth, good will to men" (Luke ii, 10-14). The statistics compiled by missionary associations show for the last century that at its beginning there were about 600,000,000 heathen people in the world; at its close there were nearly 1,200,000,000, almost double the number. To one born in Christendom, hundreds and thousands were born in heathendom. As for peace being established in the earth: never in all the annals of the race has there been such vast preparations for war and bloodshed as at the present time. In the place of the nations beating their swords into plow-shares and their spears into pruning-hooks (Isaiah ii, 4) just the reverse is taking place. Kindly answer my question.

Answer.—The Scriptures will answer your question. They show that the Creator's purpose for the present time is not the conversion of the world to Christianity, but merely the gathering out or the selection of a predestinated class, the Church of Christ, which in the Age or Dispensation to come, will establish universal peace in the earth, and cause the knowledge of the Lord to fill the world so that all the people shall know Him from the least to the greatest. Christianity will then be gloriously triumphant, as, at that time every knee shall bow and every tongue give praise to God (Revelation xix, 11-16).

# THE LOCAL "PANAMA CANAL" IS HELD UP. MARKET ST. SEWER STRANDED. COUNCIL CALLED TO SUPPLY MORE FUNDS.

Original Appropriation of \$2000 Now Practically All Expended, and About \$450 Still Needed to Complete the Big Job.

Inquiry as to the progress and condition of the famous Market street sewer, which was started last June and is still far from completion, has developed the fact that right now the sewer is nearing the point of stand-still again unless immediate relief is furnished by council.

The funds appropriated by Council for the construction of the sewer, which is to furnish outlet for the Y. M. C. A. as well as for the residences and places of business near it, are all but exhausted, and work will come to an end within a few days unless more funds are provided, and the sewer is not completed by 358 feet. The additional cost will run from \$350 to \$450, if the cost may be estimated on that part of the sewer already completed.

The condition of the sewer has been placed before President of Council, Col. B. H. Millikan, who has issued the following call for a meeting to be held Monday night of next week, when the Market Street sewer is to receive attention:

Mr. J. J. Flynn, City Clerk,

Washington C. H., Ohio,

Dear Sir:—You are hereby directed to notify the members of the City Council of Washington Court House to meet in special session on Monday, September 18, 1911, at 7:30 o'clock p. m., to consider report of Mayor on Market Street sewer.

B. H. MILLIKAN,  
President of Council.

The call for a meeting was prompted by the following communication, which explains the financial condition of the Market Street sewer to date:

Washington C. H., Ohio,  
September 14th, 1911.

Col. B. H. Millikan, President of Council, Washington C. H., Ohio.  
Your attention is called to the condition of the Market Street sewer fund:

Expenses per attached statement . . . 1,323.58

Balance on hand un-

expended at noon,

Sept. 14, 1911 . . . \$96.42

If Council desires to proceed further with this sewer, additional funds will have to be provided.

Very respectfully,

RELL G. ALLEN,

Mayor.

A statement of the expenses, and full information as to how the work has progressed, accompanied the above communication, and is given in full as follows:

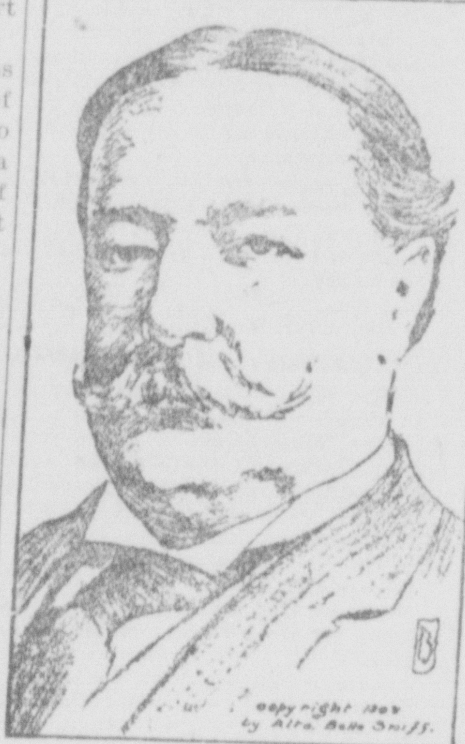

## STATEMENT OF EXPENSES.

<b>Total . . . . .</b>	<b>\$1,323.58</b>
Total amount excavated, new sewer, 1400 cubic yards.	
Total length from creek to center of Main street, 1159 feet.	
Amount completed, 801 feet.	
Amount to complete, 358 feet.

Depth on east side of railroad tracks, 14 feet 3 inches.	
Greatest depth, Presby. Church corner, 16 feet 9 inches.

The amount appropriated by council at the time the Market street sewer fund was \$2000, but 580 of this amount was to cover cost of preparing plans and specifications for the new sanitary sewerage system.

The Market street sewer was decided upon by Council at the urgent request of the Y. M. C. A. committee, who were desirous of obtaining an outlet to Paint creek, and the great depth is to drain the swimming pool.

daily wants of the classified adver-

the books of the late Robert A. Rob-  
inson will please return them to the  
Arlington House. 216 3t

Nothing is ever "Lost" in Wash-  
ington until after an advertisement  
in the classified column fails to re-  
store the article to the owner. And  
it rarely fails.

People who allow property to re-  
main vacant, things to be lost, or ar-  
ticles for which they have no use to  
remain on their hands are standing  
in their own light. A few words in  
the classified column will convince  
the most skeptical that this means  
of communication with the people is  
a "hummer." It brings results.

## No Warrant For Act.

Lebanon, O., Sept. 15.—James Fen-  
nessy, trustee of the Shaker colony  
at Union Village, near here, de-  
nounced the action of Brother Egbert  
Gillette and Sister Elizabeth Sears in  
giving chloroform to Sister Sadie  
Marchant to hasten her death. "I  
believe I voice the sentiment of every  
Shaker in the United States," said  
Fennessy, "when I say such a thing  
is very wrong and contrary to the  
laws of God and man. No matter  
what Gillette's reasons may have  
been, there is no particle in the re-  
ligion of our sect which would per-  
mit him to take the alternative of  
life or death from the hands of God."

## Mystery Surrounds Death.

Cleveland, O., Sept. 15.—Mysterious  
circumstances surround the drowning  
of Captain Frank G. Warner, 28, com-  
mander of the Dorothea, Ohio's naval  
militia ship, off the Ninth street pier.  
Warner is said to have tumbled out  
of a small rowboat without two men,  
who also occupied the boat, noticing  
the disappearance. These men first  
gave the alarm following the discov-  
ery of the accident and then disap-  
peared. The police are looking for  
them in the hope that they will be  
able to throw more light on the man-  
ner in which Warner met his death.

## WOMAN SUFFRAGE REPRESENTED IN 26 COUNTRIES

NEW YORK, (Spl.)—The woman's suffrage movement has made tremendous strides recently, not only in the United States but in other countries, and in this international campaign for the enfranchisement of women, New York suffrage leaders have taken a prominent part. Mrs. Carrie Chapman Catt of this city having been president of the International Suffrage Alliance since 1904. Mrs. Catt was again re-elected at the Congress of the international alliance just closed at Stockholm, Sweden.

Some idea of the growth of the movement since its first inception 23 years ago is given by the fact that delegates from 26 national associations in 26 countries, attended the Congress in Stockholm. According to reports from the Congress received by local suffrage leaders, the membership of the national associations has doubled in the last two years, proving, it is claimed, that there is no question before the world today as universal as woman suffrage. The next Congress, in 1913, will be held in Budapest, Hungary.

American women, particularly from New York, have from the very inception of the movement taken and maintained a leading part, although the results for themselves in their own country, have not been appreciable as in many other countries. New York suffrage leaders have seen the privileges for which they have so ardently and persistently campaigned, granted to women of other states by more liberal minded legislatures, while the statesmen of the Empire state have given them scant hearing. Their attitude, however, has been "if we can't get what we want for ourselves we can at least help the women in other states and countries to that equality and recognition in governmental affairs to which they rightfully are entitled."

American women gave the first impetus to a world-wide woman's suffrage movement, and a New York woman was elected president of the first international meeting. In 1888 Elizabeth Cady Stanton and Susan B. Anthony decided to form an international organization. They found but one other country which had a woman's suffrage society—Great Britain. They entered into correspondence with the British society and with as many women in other countries that had shown any progressive tendencies as they could come in touch with. Finally a meeting was called in Washington in 1902. Australia, Norway, and the Netherlands, sent delegates. Before the convention met, Mrs. Stanton died and Mrs. Catt took her place by Miss Anthony's side. An organizing committee was named and two years later in Berlin, the first large convention was held. Delegates from the United States, Denmark, Germany, Great Britain, Holland, Canada and Sweden, were in attendance. The convention was most enthusiastic and an International Woman's Suffrage Alliance was formed. Mrs. Catt was elected president and still holds office.

Since 1904 conventions have been held in Copenhagen, Amsterdam and London and the alliance now includes the progressive women of 26 countries. The congress of 1906 in Copenhagen was followed by the conferring of the municipal vote on Danish women and the suffrage on those of Norway. The leaders hope that the Stockholm Congress will be followed by full suffrage for the Swedish women, who have enjoyed municipal suffrage for many years.

Eloquent addresses in half a dozen languages and spirited resolutions for women's rights were a feature of the Stockholm congress. A dramatic moment came when Selma Lagerlof, the literary idol of Sweden, the woman who was awarded the Nobel prize for her intellectual achievement, made an appeal for the women of her country. Women wept and even men were in tears. The climax of the congress came when the international banner and flag designed by a Swedish woman, were presented to the alliance. All around the galleries of the great audience room of the Royal Academy of Music hung the flags of the countries affiliated; on the stage were grouped the most distinguished women of those countries; as the gorgeous gold and white banner was brought forward, the vast audience arose, the large choir and orchestra began the women suffrage hymn and the flags of the nations were lowered and raised in unison. The delegates and audience became wildly enthusiastic.

An International Man's League for Woman Suffrage, was also formed at the Stockholm convention. Earnest Beckman, a member of the Swedish Parliament, and president of the Swedish Men's League for Woman Suffrage, in addressing the convention said:

"Almost every feature of the woman's suffrage movement originated in the United States. The first woman's rights convention was held there; the first national association was formed there; the international alliance had its beginning there, and the first government in the world to fully enfranchise women, was that of the state of Wyoming—all this we owe to the American woman."

Among the delegates were prominent women from many countries. A significant contrast was noted between Norway and Sweden. The government of Norway, where women enjoy complete suffrage equal with men, sent as representatives a woman member of Parliament and a woman who has served six years on the City Council of Christiania. The Swedish government sent as its official representative, the minister of foreign affairs, an outspoken and active anti-suffragist.

### Sunshine Salad

Slice a seedless orange very thin and put the slices in a glass dish. Cut a few blue plums into halves, taking the pits out, and scatter the fruit over the slices of orange. Chop a sour apple fine and put a thin layer of this on the other fruit. Fill the dish with this arrangement of fruit, slices of oranges being on top. Make a sugar syrup not too thick and when it is cool pour over the fruit. Chill in the refrigerator and serve with whipped cream.

### Cocoanut Ice Cream

Put one pint of milk in a double boiler with one and one-half cupsful sugar. Add the grated rind of half a lemon, the pulp of three bananas, and one cupful of cocoanut. Set away to cool, and when cold, add one quart of cream and freeze after the usual method. This is a good cream with which to serve hot sauces, or cold ones, having them daintily colored and well flavored.

**APRICOT TAPIOCA**—Soak one cupful of fine tapioca for two hours in sufficient cold water to cover. Drain, put into a double boiler with one-quarter of a cupful of sugar and the syrup drained from a can of apricots, adding boiling water sufficient to give three cupfuls of liquid. Add one-half of a teaspoonful of salt and cook until transparent. Cut each piece of apricot into three and put in layers in a pudding dish with the cooked tapioca. Bake for half an hour in a moderate oven and serve with cream.

**\$600 Schaff Bro. Player Piano**

### First Grand Prize

**\$600 Schaff Bros. Player Piano**

This beautiful Player Piano will be given to the person having the largest number of votes in the Register-Herald's Great Voting Contest, and was bought of J. A. Smalley, who has the instrument on exhibition at his storeroom on West Court street, next door to the T. C. DeWeese Photo Gallery. A cordial invitation is extended to all to call and examine this beautiful prize.

This player piano carries with it an unlimited warranty and is the most simply constructed player on the market, one lever acting for the tempo, start, stop and rewind, making it possible for a child to operate it and play any style of music, from ragtime to the most classical.

The tone of this instrument, its volume of sound and artistic workmanship have earned for it the distinction of being one of the finest player pianos ever brought into Fayette county. Call at Smalley's store on West Court street and examine this prize.

### 2nd Grand Prize

**\$265 Link & Son Piano**

This piano, also made by the Schaff Bros., of Chicago, Ill., and Huntington, Ind., has no equal on the market for the price. The people making this piano have been located in Chicago since the year 1868, since which time their financial rating has been unsurpassed by any of their competitors. They were the first firm to make upright pianos in Chicago after the great fire of 1871, and a steady improvement has marked the quality of their product ever since.

This piano was purchased from J. A. Smalley and is on exhibition at the storeroom next to the DeWeese photograph gallery. The many excellent features of this instrument, combining a double veneered maple-lined mahogany case, light, perfectly balanced and sympathetic action and soft mellow tone make it one that anyone who is a lover of music would be proud to own.

### DISTRICT FIRST PRIZE
